

Intake air filtration for Daimler.

Hengst is development partner and series supplier for the intake air filtration in the VS30 variant of the OM651 four-cylinder in-line diesel engine from Daimler. This variant is used in the Sprinter vehicles, which are equipped with a particularly high requirements for durability and lifetime performance. Hengst air filter remove permanently foreign particles from the intake air and thus maintain the engine performance. They also ensure optimum fuel efficiency air-mixture and thus guarantee an best possible combustion. The filter insert is equipped with a flame retardant medium.

The right Hengst filter:

Engine	Oil	Fuel	Air	Cabin Air
OM651	E11H D204	H408WK H412WK	E1463L	E4927LC E4927LI

Vehicle applications: Mercedes-Benz

SPRINTER III (910) 211 CDI, 214 CDI, 216 CDI, 311 CDI, 314 CDI, 316 CDI, 411 CDI, 414 CDI, 416 CDI, 511CDI, 514 CDI, 516 CDI ab Bj. 02/18
